

4-H in the Classroom
Spring, 2019
April 2 (Tues) - 25 (Thurs) OR
April 30 (Tues) – May 23 (Thurs)

Dear Teacher,

Information on our **“4-H in the Classroom – Chick Quest”** teaching kit for **Spring, 2019** is attached. This 4-H kit is “teacher-friendly” - lessons, incubator, and most supplies are included. **Cost to borrow the kit is still \$25.** These fees help defray the cost of non-re-usable kit supplies, fertilized eggs, and incubator maintenance.

To reserve a 4-H teaching kit, complete and return the attached Reservation Form.

Booking policy is “first-received; first-served.” *Because of demand, no more than 3 incubators per school (requests for additional incubators can be put on a waiting list.)* Pre-K will be put on a waiting list.

Fees MUST be paid at time of kit pick-up, unless other arrangements are made. The bill for fees is the confirmation letter with your “reservation date”. It will be emailed one-week prior to kit pick-up. *Purchase Orders may be used – please note that on your reservation.*

You are provided with an incubator, **10 fertilized chicken eggs** and a teacher’s guide. Hatched chicks will be raised on a local farm. A “back up batch” of chicks will be available in case of unforeseen situations that may cause you a poor hatch. **Kit cost is still \$25.** *Teachers can still get eggs only for \$12 for 10 eggs.*

Teaching kits must be **picked up and returned to the Extension Office, 580 Calumet Lane, Dayton, 45417.**

Pick-ups and returns as per the above dates are between 3pm - 6:00pm. Please call for other time arrangements.

A parent/volunteer may pick-up/return the kits for you.

4-H is the Youth Development Program of Ohio State University Extension in cooperation with the Montgomery County Commissioners and United States Department of Agriculture. The four **“H’s”** stand for **Head, Hands, Heart, and Health.** The mission of 4-H is to involve caring adults in helping youth reach their fullest potential as capable, competent, caring and contributing citizens.
